

ZUNNURAIN AZAM

Full Stack Developer

+92 324 3449544 | naniali405@gmail.com | linkedin.com/in/zunnurain-azam | github.com/zunnurain-azam

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in Laravel, CodeIgniter, React.js, PHP, and MySQL. Completed a Backend Developer Intern at Ovex Technologies, where I built RESTful APIs, web applications, and scalable backend solutions. Actively expanding expertise in the MERN stack (MongoDB, Express.js, React.js, Node.js). Passionate about clean code, problem-solving, and continuous learning.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap, Tailwind CSS

Backend: Laravel, CodeIgniter, PHP, REST APIs, Node.js (Learning)

Mobile: Flutter, Dart

Database: MySQL, MongoDB (Learning)

Languages: PHP, JavaScript, Python, SQL, Dart

Tools: Git, GitHub, Postman

Currently Learning: MERN Stack (MongoDB, Express.js, React.js, Node.js)

WORK EXPERIENCE

Backend Developer Intern — Ovex Technologies

January 2026 – June 2026 | Islamabad, Pakistan

- Built and maintained web applications using Laravel and CodeIgniter frameworks.
- Developed RESTful APIs and integrated backend functionality with frontend components.
- Implemented server-side logic and managed MySQL databases for multiple projects.
- Technologies: Laravel, CodeIgniter, PHP, MySQL, REST APIs, Git

Frontend Intern — Developers Hub Corporation

Online Internship

- Developed a responsive e-commerce website using HTML5 and CSS3.
- Implemented product listing pages, shopping cart, and checkout UI.

PROJECTS

Journey – Laravel Travel Booking Platform

Laravel Web Application | Internship Project | 2026

- Developed a full-featured travel and trip booking web application using Laravel and Blade templates.
- Designed and implemented responsive user interfaces including Login, Registration, Blogs, Trip Listings, and Trip Booking pages.
- Implemented blog management features, allowing administrators to create, edit, update, and delete blog posts through the CMS/LMS dashboard.
- Developed booking management modules enabling administrators to view and manage user trip bookings efficiently.
- Integrated MySQL database for secure data storage and seamless application functionality.

Excel Data Extractor

Laravel Web Application | Self Project | 2025

- Built a Laravel web application that allows users to upload Excel files and automatically extract and display data in structured, dynamic HTML tables.
- Implemented file upload, Excel parsing (PHP Spreadsheet), and rendered extracted data in a clean, responsive table layout using Blade templates.
- Handled validation, error handling, and edge cases for different Excel formats (.xlsx, .xls).

Panic Care Application

Flutter Mobile App | Final Year Project | 2025

- Built an emergency panic care app with SOS alerts, real-time location sharing, and emergency contact notifications.
- Integrated AI for intelligent query handling with MySQL backend.
- Designed modern UI with smooth navigation and secure data management.

Spotify Clone

HTML / CSS / JavaScript | Self Project | 2025

- Built a music player UI with play/pause controls, dynamic song list, progress bar, and interactive playlist.

EDUCATION

Bachelor of Computer Science

International Islamic University Islamabad | 2021 – 2025

FSC Pre-Engineering

IMCB | 2020 – 2021

Matriculation

IMSB | 2019 – 2020
